

# INDEX.

NOTE.—The letters *a* or *b*, following a number, indicate the first or second column of the page, respectively.

Page.	Page.
Abbe, Cleveland. Notes and extracts.	
The meteorological reporter to the government of India.....	30
Bombarding against hail (Alfred Angot).....	30
Horizontal curvilinear movement of clouds.....	30
Scottish Antarctic expedition (R. C. Mossman).....	31
Climates of geological ages (Dr. Fritz Frech).....	31
James Glaisher .....	85
Snow from a clear sky.....	85
Sunshine records at Hamburg, Germany (H. Koenig).....	85
Aerial research in Denmark (L. Teisserenc de Bort).....	85
Courses of instruction in meteorology (J. Paul Goode).....	86
Hann's climatology in English.....	86
Origin of the word "barometer." (H. C. Bolton).....	87
Second Russian congress on climatology (Gen. Rykatcheff).....	138
Weather cycles and farmers' almanacs .....	138
Chavanne's temperature and rainfall in Argentina .....	140
The weather in Venezuela (E. H. Plumacher).....	141
The Cuban meteorological service (W. C. Devereaux).....	141
Student assistants in the United States Weather Bureau (Dr. O. L. Fassig).....	141
An arctic magnetical and meteorological station .....	141
Notes on the barometric pressures at Colon and Alhajuela.....	142
Relation between winds and isobars .....	142
Climatic factors in railroad engineering .....	176
Meteorological expedition to the Bahamas .....	188
Miscellaneous items .....	189
Weather Bureau men as instructors (C. Abbe, F. H. Bigelow, S. S. Bassler, J. W. Bauer, E. A. Beals, A. H. Bell, W. T. Blythe, E. H. Bowie, F. H. Brandenburg, Allen Buell, W. G. Burns, F. A. Carpenter, I. M. Cline, N. M. Cunningham, N. B. Conger, E. A. Evans, R. H. Dean, H. B. Egbert, O. L. Fassig, R. Q. Grant, A. E. Hackett, E. G. Johnson, A. G. McAdie, E. W. McGann, J. B. Marbury, A. J. Mitchell, L. H. Murdock, W. S. Palmer, H. R. Patrick, H. W. Richardson, J. H. Scarr, W. A. Shaw, J. Warren Smith, Charles Stewart, A. H. Sullivan, L. M. Tarr, N. R. Taylor, J. T. Weeks, W. M. Wilson).....	190
Miss Alicia de Riemer .....	194
Cold weather in the Arctic and Temperate zone .....	235
Meteorology at the next meeting of the French association (B. Brunhes) .....	235
Not a tornado on May 26 .....	235
Exhibition of meteorological apparatus at Southport, England (W. N. Shaw) .....	236
International aerial research .....	236
Currents in Sandusky Bay (E. L. Mosely) .....	236
An incipient tornado in Iowa (Chas. A. Robertson) .....	282
Weather Bureau men as instructors (R. G. Allen, G. A. Loveland, and J. R. Weeks) .....	283
Lunar rainbow .....	283
Climate and the sugar beet (H. W. Wiley) .....	283
Is the moon's influence on the weather worth any further investigation? (F. L. Odénbach) .....	284
The "Guns," of Lake Seneca, N. Y. (Wm. A. Prosser) .....	336
Variation of gravity over the deep sea .....	336
Weather Bureau men as instructors (Charles Stewart) .....	336
Droughts of 1901-3 (Andrew Noble) .....	336
The rain maker in Australia .....	338
Meteorology in the universities .....	338
Movements of the air within areas of high and low pressure .....	339
Meteorology in the summer schools .....	340
Weather Bureau men as instructors (J. S. Hazen) .....	379
The method adopted in constructing normals (Willis L. Moore, F. H. Bigelow) .....	380
From New York to Capetown .....	380
Temperature of the upper air as observed on mountains and with kite meteorographs (W. H. Dines) .....	381
Hurricane at Martinique, August, 1903 (A. Lahille) .....	382
Resignation of H. Sowerby Wallis .....	382
Retirement of Professor Neumayer .....	382
Local storm in Baltimore, Md., (Edward O. Easton) .....	382
Illness of Prof. Alfred Henry .....	383
Notes upon economical shapes for cutting envelopes of balloons .....	383
Fiftieth anniversary of the Meteorological Society of France (Violle) .....	422
Meteorology at Williams College, Massachusetts .....	423
Is there a seven-year cycle in rainfall in Illinois? .....	423
Weather Bureau men as instructors (C. F. von Herrmann, George Reeder, F. P. Chaffee, J. R. Weeks, Charles E. Ashcraft, Jr.) .....	424
New Weather Bureau station in Yellowstone Park, Wyo. ....	424
Sun spots and weather (H. M. Watts, Willis L. Moore) .....	425
Small lightning discharges between the raindrops (F. M. Taylor) .....	425
Old weather record at Fairmont, Onondaga County, N. Y. ....	425
Hurricane on September 11 in the Bahamas (Arthur S. Haigh) .....	425
Sun spots and the weather conditions on the earth (Frank H. Bigelow) .....	474
Weather Bureau men as instructors (J. R. Weeks, J. Grover, W. M. Fulton, Charles Stewart, L. M. Pindell, A. G. McAdie) .....	474
Sun-spot periods in meteorology .....	475
Noises made by projectiles and meteors .....	476
Climate and mankind .....	476
Reliability of high wind records .....	476
Philippine weather bureau .....	477
Long-range forecasting (E. B. Garriott, James P. Hall) .....	479
Weather Bureau men as instructors (N. B. Conger, W. M. Fulton, L. M. Pindell, F. P. Chaffee) .....	530
Proposed pilot charts of the South Atlantic and of the South Pacific oceans .....	530
Daily weather map for the Northern and Southern hemispheres (John Eliot) .....	532
Meteorological observatory at San Fernando, Spain .....	531
Education of meteorologists .....	531
Cooperation in Government work in science .....	531
Aqueous vapor lines of the solar spectrum .....	532
Seiches in Lake Garda (J. Valentin) .....	532
Copies of Professor Very's memoir on atmospheric radiation .....	533
Extremes of temperature and pressure in Montana (C. W. Ling) .....	533
Computation of the altitude of Mount Whitney (Joseph N. LeConte, C. D. Walcott) .....	533
Meteorology in the universities and normal schools .....	533
Oscillations of temperature at any altitude .....	534
Waterspout (H. A. Alford) .....	534
Illness of Mr. Curtis J. Lyons .....	534
Lightning phenomenon (F. L. Odénbach) .....	534
Barometric disturbance in the Danish West Indies, November 22-29, 1903 (John T. Quinn) .....	535
Popular articles requested .....	536
Black rain in Clermont County, Ohio, August 19, 1903 (J. W. Smith, Milton Whitney) .....	536
Vertical components of atmospheric motion .....	536
Proportion of rainfall available for plant use .....	537
Stationary and whirled psychrometers .....	537
Meteor observed at South Bend, Ind. ....	538
Terrestrial globes .....	538
Periodic floods in the Mississippi .....	538
Island stations in the South Atlantic Ocean .....	538
New suggestion for thermometers (G. Guglielmo) .....	539
Corrigenda .....	539
Formation of hailstones .....	594
Weather Bureau men as instructors (H. J. Cox, D. A. Seeley, W. M. Fulton, J. R. Weeks) .....	594
Meteorology and the art of flying .....	594
Thermophone applied to geodesy (John F. Hayford) .....	595
Periods in solar radiation and terrestrial temperatures .....	595
Southport exhibition of meteorological apparatus .....	595
Diffusion of odors in the atmosphere (John Zeleny) .....	596
Low barometer during the President storm of March 12, 1841, (George Davidson) .....	597
Mischief of wrong theories .....	597
Aurora and magnetic disturbances of October 30-November 1, 1903 (Th. Moureaux) .....	597
Storms on the southeast coast of Cape Colony .....	598
Density of the atmosphere under different conditions .....	598
Weather notes at West Cummington, Mass. (W. G. Atkins) .....	598
International seismological association .....	598
Meteorology in Hawaii .....	599
Influence of continents and oceans on the atmosphere .....	599

Page.		Page.
Origin of the rare gases in the earth's atmosphere (S. A. Mitchell).....	Eliot, John, solar activity and terrestrial meteorology. ( <i>In Daily weather map for the Northern and Southern hemispheres.</i> )	531
Abbott, C. G., recent studies on the solar constant of radiation.....	Ellingers, J., jr., hurricane in the Gulf of Mexico .....	415
Abbot, Henry L., climatology of the Isthmus of Panama.....	Elmer, Alton D., high winds in mountain valleys.....	18
Mean barometric pressure at sea level on the American Isthmus.....	Temperature and rainfall departures at Hawaii, as duplicated in New England sixty days later .....	63
Note on the barometric pressure at Colon .....	Evans, E. A. [Flood on the James River].....	57b
Alexander, W. H., hailstorms in Porto Rico .....	233	
Alford, H. A., waterspout .....	Fassig, Oliver L., kite flying in the Tropics .....	582
Alger, Philip A., noises made by projectiles .....	476 Lantern slides .....	227
Angot, Alfred, syllabus of lectures on meteorology .....	70 Meteorological work of the expedition to the Bahamas .....	320
On the simultaneous variations of sun spots and terrestrial atmospheric temperatures .....	Frankenfield, Henry C., areas of high and low pressure (table). Rivers and floods. ( <i>See Table of Contents.</i> )	167
Ashley, A. Mc, floods in Pennsylvania.....	112a Frech, Fritz, climate of geological ages .....	31
Atkins, William G., weather notes at West Cummington, Mass.....	598 Fulton, Weston M., Fulton automatic river gage at Chattanooga, Tenn .....	185
Bassler, S. S., floods on the Ohio.....	56b	
Bate H. C., E. O. Nathurst.....	473 Garriott, E. B., forecasts and warnings. ( <i>See Table of Contents.</i> ) Relation between atmospheric conditions in England and America. ( <i>In Long-range forecasting.</i> ) .....	479
Beals, E. A., Portland, Oreg., forecast district .....	220 3, 56, 111, 167, 260, 310, 367, 409, 451, 505	
Flood on the Willamette .....	3b Glenn, S. W., violent wind in South Dakota .....	22
Floods on the Columbia .....	114a Guglielmo, G., new suggestion for thermometers .....	537
Belden, W. S., stages of the Mississippi River at Vicksburg, Miss.....	234	
Benton, J. R., electricity at low temperatures .....	20 Hackett, A. E., William Kaucher .....	142
Berry, James, climate and crop service. ( <i>See Table of Contents.</i> )	Haigh, Arthur S., hurricane on September 11 in the Bahamas ..	425
Besson, Louis, vertical component of the movement of clouds, measured by the nephoscope .....	22 Harper, Thomas B., waterspout off Hatteras .....	225
Bigelow, Frank H., mechanism of countercurrents of different temperatures in cyclones and anticyclones .....	22 Harris, R. A., semidiurnal tides in the northern part of the Indian Ocean .....	127
Notes on the barometric pressures at Colon and Alhajuela ..	72 Heiskell, H. L., computation of the altitude of Mount Whitney ..	527
Structure of cyclones and anticyclones on the 3500-foot and 10,000-foot planes for the United States .....	142 Hergesell, H., on the ascension of closed rubber balloons .....	571
Studies on the circulation of the atmosphere of the sun and of the earth:	26 Hunt, George E., areas of high and low pressure (table). 3, 56, 111, 220, 310, 367, 409, 451, 506, 566, 625	
I. Circulation of the sun's atmosphere .....	459 Jesunofsky, L. N. [Floods in South Carolina].....	57 b, 113 a, 261 b
II. Synchronism of the variations of the solar prominences with the terrestrial barometric pressures and the temperatures .....	Kellogg, E. W., thermometric observations at Santa Fe on the Isle of Pines .....	22
Sun spots and the weather conditions on the earth .....	509 Kimball, H. H., abnormal variations in insolation .....	232
Synchronous changes in the solar and terrestrial atmospheres .....	474 Notes upon economical shapes for cutting envelopes of balloons .....	383
Bolton, Henry Carrington, origin of the word "barometer" .....	9 Observations of solar radiation with the Ångström pyrheliometer at Asheville and Black Mountain, N. C. ....	320
Bort, Leon Teisserenc de, aerial research in Denmark .....	87 Knott, C. G., solar radiation and earth temperatures .....	454
Franco-Scandinavian station for aerial soundings .....	85	
Bowie, E. H. [Floods in Texas]. .....	177 Leidy, C. Fontaine Maury, waterspouts at Cape May, N. J., August 24, 1902 .....	529
Brandenburg, F. H., Denver forecast district .....	113b Lahille, A., hurricane at Martinique, August, 1903 .....	382
Weather Bureau cooperation in reclamation work .....	414 LeComte, Joseph N., altitude of Lone Pine, Cal. ( <i>In Computation of the altitude of Mount Whitney.</i> ) .....	533
Brunhes, B., meteorology at the next meeting of the French Association .....	235 Ling, C. W., extremes of temperature and pressure in Montana ..	533
Buckingham, Edgar, note on the radiation formulas and on the principles of thermometry .....	178 Lydecker, R. C., Hawaiian climatological data. 362, 404, 446, 500, 622 Lyons, Curtis G., Hawaiian climatological data. 7, 62, 135, 171, 225, 306 Trees as forecasters of rain .....	592
Chaffee, F. P. [Floods in Alabama]. .....	58b	
Chamberlin, T. C., how can endowments most effectively aid research .....	Leidy, C. Fontaine Maury, waterspouts at Cape May, N. J., 167, 219, 310, 367, 409, 450, 505, 566 Mount Whitney as a site for a meteorological observatory .....	529
Chappel, George M. [Storm at Des Moines, May 26, 1903.] .....	235b Weather reports from vessels at sea .....	524
Cline, I. M., New Orleans forecast district .....	509 McAdie, Alexander G., and Thomas, W. W., some high wind records on the Pacific coast .....	269
Cordeiro, F. J. B., problem of the cyclone .....	516 McAdie, Alexander G. (with W. W. Thomas), high winds at Point Reyes Light, Cal. ....	64
Cousins, H. H., climatological data for Jamaica .....	18, 268, 334, 375, 447, 501, 562, 563	
Hurricane of August 11, 1903, at Jamaica .....	375	
Cox, H. J., Chicago forecast district .....	2, 55, 111, 166, 219, 260, 409, 450, 505, 566	
Davidson, George, low barometer during the <i>President</i> storm of March 12, 1841 .....	133	
Davis, Harvey N., observations of solar radiation with the Ångström pyrheliometer at Providence, R. I. ....	235b	
Davis, T. H., typical October winds on our Atlantic coast .....	175	
Dexter, Edwin G., inductive studies in weather influence .....	19	
Deutsche Seewarte, an antarctic research. Abstract from the Monatskarte für den Nordatlantischen Ozean, communicated by James Page .....	275	
Devereaux, W. C., photograph of lightning at Havana, Cuba .....	175	
Diffenbach, A. C., noise made by projectiles .....	187	
Dinew, W. H. (with W. N. Shaw), meteorological observations obtained by the use of kites off the west coast of Scotland .....	472	
Easton, Edward O., local storm in Baltimore, Md. ....	477	
Ebert, Hermann, atmospheric electricity considered from the standpoint of the theory of electrons .....	228	
Edwards, Rowena A., meteorology in the National Agricultural Institute of France (A. Angot) .....	382	
Monte, Enrique del, the hurricane season .....	229	
Moore, Willis L., Solar activity and terrestrial weather. ( <i>In Sun spots and weather.</i> ) .....	70	
Report of the Chief of the Weather Bureau for the fiscal year ending June 30, 1903 .....		

Page.		Page.	
Mosely, E. L., currents in Sandusky Bay.....	236	Shaw, W. N., exhibition of meteorological apparatus at Southport, England .....	235
Local peculiarities of snowfall .....	25	“La lune mange les nuages.” A note on the thermal relations of floating clouds.....	266
Mossman, R. C., communication from the Scottish Antarctic Expedition .....	31a	Methods of meteorological investigation .....	415
